| | 18 - ? = 9 | 14 – 7 = ? | 12 - ? = 6 | ? + 8 = 16 | 20 –10= ? | 9 + ? = 18 | ? + 6 = 12 | 16 – 8 = ? |

Left column:
- 16 - ? = 8
- 9 + ? = 18
- 20 -10 = ?
- 14 – 7 = ?
- ? + 8 = 16
- 18 – 9 = ?

Right column:
- 7 + ? = 14
- 10+ ? =20
- ? + 9 = 18
- 6 + ? = 12
- 14 - ? = 7
- 8 + ? = 16

Centre numbers: 7, 10, 8, 7, 9, 10, 8, 6, 10, 10, 8, 7, 8, 6, 9, 10, 6, 8, 9, 9, 6, 7, 6, 9, 7

Bottom row:

| 10+ ?= 20 | 16 – 8 = ? | 14 - ? = 7 | ? + 9 = 18 | 6 + ? = 12 | ?+10 = 20 | ? + 7 = 14 | 18 – 9 = ? | 20 - ? =10 |

Play the doubles: **How to play:** You will need a 1 – 6 dice and a counter to move around the board and some more counters for playing the doubles. Roll the dice and starting at the Wilkie Way move your counter around the board in either direction. Find the value of the **?** in the equation you land on and place a counter on the number in the centre.   **Designed by Charlotte Wilkinson**
